ABOUT ME

Motivated and detail-oriented fresh graduate with a Bachelor of Science in Information Systems. Strong foundation in user research, web design, and office productivity tools. Spearheaded the development of a Management Information System for Calayan Educational Foundation Inc., streamlining student activity proposal submissions, integrating analytics for decision-making, and enabling online requests and tracking of good moral certificates to reduce manual processing and office crowding. Proven ability to collaborate with teams through academic extracurricular involvement. Willing to learn some new things in the work industry.
